VIJESTI DOGAĐANJA PLATFORMA ZA DIGITALNI AKTIVIZAM I DONIRANJE

European Foundation for Philanthropy and Social Development was established with the purpose of developing philanthropy by providing professional and financial support to philanthropists, foundations and socially responsible legal entities through quality and innovative models of action at the national and European level.

The European Foundation was established at a time of increasing need to harmonize the development of philanthropy and foundations in the Republic of Croatia with the growing importance and expectations of the European Union towards philanthropy and foundations, taking into account the challenges and opportunities of their development in the context of social development in Europe and the world.

Croatian Foundation forum ZaDobroBIT

During 2020, the European Foundation continued its cooperation with the member foundations of the Croatian Forum ZaDobroBIT. Due to the overall situation regarding the Covid-19 pandemic, but also due to the earthquake that hit Zagreb, most foundations were forced to change and adapt their operations to the new situation.

In collaboration with the National Foundation for Civil Society Development, we launched a project called “Naše priče ZaDobroBIT” (Our Stories for Good) through which we collected foundation stories about how they cope and how they work during this specific situation. The aim of this project was to show the importance and the role that foundations have in our society.

Philanthropy week 2020.

TJEDAN
FILANTROPIJE
2020.

Unlike previous years, and due to the coronavirus pandemic, this year's Philanthropy Week was marked in a different way, virtually. We recorded and published short movie about philanthropy in Croatia and published a virtual exhibition on the history of philanthropy in Croatia.

U okviru Tjedna filantropije 2020. godine predstavljena je virtualna izložba o povijesti filantropije u Hrvatskoj

Program "Youth: The Strength of the Community"

Likewise, due to the COVID-19 virus, the program "Youth: The Strength of the Community", which we planned to mark by gathering of all the initiatives and participants in the final event in Zadar in March 2020, we were forced to postpone for the end of last year and implement it virtually. We made a short movie in which we presented the results of all eleven initiatives from five cities and one municipality (Jastrebarsko, Đakovo, Split, Zadar, Rijeka and Postira). For all members of the initiatives, we provided appropriate promotional packages and thank you notes for participating in the Program.

Also, under the same initiative as with the members of the Croatian Forum of the ZaDobroBIT Foundation, but under the title "Our Stories from the Community", we included young people from the project "Youth: The Strength of the Community".

Transnational Giving Europe (TGE)

Since December 2020, Croatia has joined the Transnational Online Giving Platform (TGE), International online giving platform, on which we made a short promotional [movie](#).

This platform enables European philanthropists - companies and individual donors - to make easy and fast online donations within a safe and legal framework. Currently, 21 European countries are involved in the project, including Croatia, and donors are achieving a significant reduction in taxes and levies in this way. Non-profit organizations working for the common good thus gain greater transparency and additional funding for their activities.

"In this way, we help civil society organizations to work for the common good and public institutions such as museums, universities or theaters. We are glad that three of our associations received a donation through the Belgian Foundation member, also the largest supporter of TGE. In cooperation with four Croatian cities branded as 'Good Cities' (Zadar, Rijeka, Jastrebarsko, Đakovo), we are preparing new opportunities for funding and public institutions from these cities that could be funded by TGE," said Cvjetana Plavska-Matic, chairwoman of TGE in 2020.

For donations to organizations from Croatia or donations from Croatia to other European countries, it is necessary to join the ZaDobroBIT! Platform. It is a national contact center which serves to connect to the international giving platform where one can find activities to support, and donors can find organizations from other European countries to support.

Project C.O.P.E.

C.O.P.E. Capabilities, Opportunities, Places and Engagement: Approach for Social Inclusion of Difficult to Reach Young People through a “Relational Proximity” Community Network is a project we applied for in in collaboration with colleagues from the Provincia Autonoma di Trento - Social policies department (PAT). Its aim is to help young people coming from different margins of society to successfully integrate and find a job. PAT is the coordinator of the project, besides the European Foundation, 5 other foundations from Italy, Portugal and the United Kingdom are participating in it. The project is registered at the tender of the European Commission under the EaSI program. If the project is approved, its start is planned for April 2021.
